

Kazakhstan

- ❖ Capital of Kazakhstan is ASTANA;
- ❖ Kazakhstan 9TH LARGEST COUNTRY in the world;
- ❖ Kazakh language is state language, Russian is official language;
- ❖ The local currency of Kazakhstan is the Tenge (KZT);
- ❖ 1 EUR - 348,68 KZT;
- ❖ There are 6 medical schools in Kazakhstan

Karaganda city

- Karaganda Region is located in the Central part of Kazakhstan, it is the administrative center of Karaganda oblast (region) of Kazakhstan.
- Karaganda is situated at the center of important Karaganda coal basin.
- Karaganda is the second largest city of Kazakhstan.
- Karaganda has the population of about 1 366,200 people (2012) on the territory of 543 sq.km.

Karaganda State Medical University

CASEU
Central Asian and European
Universities

Corporative network

Centre of practical skills

Lab: 13 teaching laboratories
Sanitary Molecular genetic

Today Karaganda State Medical University is one of the leading medical university of the Republic of Kazakhstan: according to the results of the National Accreditation Centre's rating in 2008, KSMU has occupied the 8th place among 60 Kazakhstan leading universities and now it is the leading medical school in the Republic. State Certification Commission (2007) noted the high achievements of the University in the organization of academic, research and educational efforts and was recommended to «establish a school advanced experience based on KSMU not only for medical universities in Kazakhstan, but in Central Asian Republics and CIS countries ».

	Israel

Directions that KSMU offers for the PhD students at the shared Laboratory(Microbiology)

- ✓ Comparison of TMAO levels in patients after myocardial infarction and in patients after cerebral stroke in the Karaganda
- ✓ Etiologic structure and antibiotic susceptibility of the secondary infections agents in patients with tuberculosis with multiple medicinal resistance
- ✓ Local data of etiologic structure of infections of upper airways in school-age children
- ✓ Etiologic structure and molecular peculiarities of microorganisms, isolated from the patients with infections of soft tissues

Contacts:

KasymovaS@kgmu.kz –Saule Kassymova, Head of International Relations Office
Babenko@kgmu.kz - Dmitry Babenko, Director of Scientific Research Centre

Department of Molecular Biology and Medical Genetics

- ✓ The study of oxidative metabolism in experimental animals during the intoxication of the dust-salt aerosols of the Aral Sea in an experiment
- ✓ Molecular-cell changes in reproductive function in rats upon contact with dust-salt aerosols of the Aral Sea in the experiment

Contacts:

KasymovaS@kgmu.kz –Saule Kassymova, Head of International Relations Office
Tatina@kgmu.kz - Elena Tatina Stepanovna, Department of Molecular Biology and Medical Genetics

Feedback from one of the exchange student from the Akaki Tsereteli University (Georgia) – Abiodun Anthony Giwa

CASEU
Central Asian and European
Universities

**Erasmus
Mundus**

“I heard about Karaganda State Medical University in 2016 year, when some students came to Kutaisi (Georgia) for an exchange programme. This year 2017, I had the privilege to spend one month at KSMU for a research exchange in the microbiology department.

The hospitality and support I received from the authorities and students was second to none. The University is gorgeous and fully loaded with intellect and world class facilities. A perfect example of an academic community that reaches back over the generations and yet fully contemporary in its academic ambitions”.

Giwa Abiodun, Anthony, Nigeria, 6th year medical student, ATSU Georgia.
